4. are newly issued, if the issue is conditional upon an application being made for admission to trading on a stock exchange or market as ticked in items 1 to 3 above. Admission to trading shall take place within one year of the expiry of the subscription period
 yes no

The Fund's assets may be invested in money market instruments traded on a market other than those indicated in items 1 to 3 above if the issue or the issuer of the instruments is regulated for the purpose of protecting investors and savings and if the instrument is subject to the Norwegian Securities Funds Act § 6-5 (2).

Up to 10% of the Fund's assets may be invested in financial instruments other than those mentioned in this section.

3.4 Investment restrictions – the Fund's assets

The security fund's portfolio of financial instruments shall be of a composition which provides a suitable spread of the risk of loss.

The Fund's investments shall at all times comply with the investment restrictions of the Norwegian Securities Funds Act § 6-6 and § 6-7 (1) (2).

3.5 Investment restrictions – ownership interest with issuer

The Fund's investments shall at all times comply with investment restrictions in the Norwegian Securities Funds Act § 6-9.

3.6 Lending

The Fund may lend financial instruments in accordance with the Norwegian Securities Funds Act § 6-11.

All income from lending shall accrue to the Fund.

§ 4 Capital gains and dividends

Capital gains shall be reinvested in the Fund.

Dividends shall not be distributed to unit holders.

The management company's Board of Directors may allow capital gains of the Fund's bonds to be distributed to unit holders.

The management company's Board of Directors may provide that dividend and/or interest income shall be distributed to unit holders.

§ 5 Costs

The management fee is the management company's compensation for managing the fund. The basis for the calculation of the management fee shall be the fund's current value. When calculating the fund's value (total net assets), the basis shall be the market value of the portfolio of financial instruments and deposits with credit institutions, the value of the fund's liquid assets and other receivables, the value of accrued income not yet due (if applicable) and the value of any loss carry forwards less debt and accrued costs not yet due, including latent tax liabilities.

Apart from the management fee, the following costs may also be covered by the fund:

1. transaction costs for the fund's investments,
2. payment of any taxes imposed on the fund,
3. interest on borrowings as described in Section 6-10 of the Norwegian Securities Funds Act, and
4. extraordinary costs necessary to protect the interests of unit holders, cf. Section 4-6 (2) of the Norwegian Securities Funds Act.

The management fee shall be divided equally among all units in a particular unit class of the fund. The amount of the management fee is stated in § 7 of the Articles of Association.

The management company SKAGEN may invest the securities fund's assets in other funds that charge a maximum management fee of 2.5% per annum. The management fee charged to the other funds will be additional to SKAGEN's management fee.

Any retrocession received by SKAGEN from a management company or the like for another fund shall accrue to the fund in its entirety.

§ 6 Subscription and redemption of units

The Fund is normally open for subscription 5 times a week.

The Fund is normally open for redemption 5 times a week.

A subscription fee of up to 2% of the subscription amount may be charged for subscription of units.

The Board of SKAGEN may decide that the costs shall increase by up to 10% of the subscription amount. The difference between 2% and the adopted increased subscription fee of up to 10% shall accrue to the Fund. The Board may set an increased subscription fee for a certain period with the possibility of extension or shortening by board resolution.

A redemption fee of up to 0.3% of the redemption amount may be charged for the redemption of units.

SKAGEN may use swing pricing. Please refer to the prospectus for further details.

§ 7 Unit classes

The fund's portfolio of assets shall be divided into the following unit classes:

Unit class	Management fee
Vekst A	A 1% fixed management fee. In addition, there shall be a variable management fee.
Vekst B	An up to 0.8 % fixed management fee. In addition, there shall be a variable management fee.
Vekst C	A 0.6% fixed management fee. In addition, there shall be a variable management fee.

Unit class Vekst A

The management company may charge the unit class a fixed management fee.

The fixed management fee shall be 1% per annum.

The fixed management fee is calculated daily and charged quarterly.

In addition, the management company may charge the unit class a variable management fee.

If net asset value per unit increases by more than 6% per annum, the management company will in addition charge a fee equivalent to 10% of the value increase above 6%. When calculating the daily net asset value per unit, the fixed management fee is deducted so that the net asset value per unit is adjusted for the fixed management fee before any variable management fee is calculated and deducted.

The variable management fee is calculated daily and charged annually on 31 December. A charge may solely be made if the unit value as at December 31st exceeds the unit value at the previous charge/settlement of the variable management fee (high-water mark). The unit value as at 31 December 2013 will form the basis for the next high-water mark. The new computation period will commence on January 1st following the setting of the high-water mark.

The daily computation of the variable management fee per unit is affected by unit subscriptions and redemptions. A variable management fee may therefore be charged even if the unit class' value growth has fallen below 6 per cent per year and will, similarly, not be charged if the value growth of the unit class has exceeded 6 per cent per year.

Unit class Vekst B

The B-unit class shall be characterised by having a lower management fee than the A-unit class. The unit class shall be open to any investor who subscribes for units through distributors who, under their agreements with the management company, do not receive payment from the management company.

The management company may charge the unit class a fixed management fee.

The fixed management fee shall be up to 0.8% per annum.

The fixed management fee is calculated daily and charged quarterly.

In addition, the management company may charge the unit class a variable management fee.

If net asset value per unit increases by more than 6% per annum, the management company will in addition charge a fee equivalent to 10% of the value increase above 6%. When calculating the daily net asset value per unit, the fixed management fee is deducted so that the net asset value per unit is adjusted for the fixed management fee before any variable management fee is calculated and deducted.

The variable management fee is calculated daily and charged annually on 31 December. A charge may solely be made if the unit value as at December 31st exceeds the unit value at the previous charge/settlement of the variable

management fee (high-water mark). The unit value as at 31 December 2013 will form the basis for the next high-water mark. The new computation period will commence on January 1st following the setting of the high-water mark.

The daily computation of the variable management fee per unit is affected by unit subscriptions and redemptions. A variable management fee may therefore be charged even if the unit class' value growth has fallen below 6 per cent per year and will, similarly, not be charged if the value growth of the unit class has exceeded 6 per cent per year.

Unit class Vekst C

The unit class is open to investors who have units in the fund (excluding unit class B) at a cost price of at least 50 000 000 Norwegian kroner, and who do not qualify for distribution remuneration or other remuneration from SKAGEN.

The management company may charge the unit class a fixed management fee.

The fixed management fee shall be 0.6% per annum.

The fixed management fee is calculated daily and charged quarterly.

In addition, the management company may charge the unit class a variable management fee.

If there is a better value development of the net asset value per unit expressed as a percentage than that achieved by an equally weighted and continuously rebalanced benchmark index composed of the MSCI Nordic Countries IMI Index and the MSCI All Country World Index ex Nordic Countries (daily traded total return net \$ measured in NOK), the management company shall charge a further 10% fee of the difference between the value development of the unit class expressed as a percentage and the value development of the equally weighted and continuously rebalanced benchmark index composed of the MSCI Nordic Countries IMI Index and the MSCI All Country World Index ex Nordic Countries (daily traded total return net \$ measured in NOK), expressed as a percentage, in the same period.

When calculating the daily net asset value per unit, the fixed management fee is deducted so that the net asset value per unit is adjusted for the fixed management fee before comparing the development of the net asset value per unit with the development of the equally weighted and continuously rebalanced benchmark index composed of the MSCI Nordic Countries IMI Index and the MSCI All Country World Index ex Nordic Countries (daily traded total return net \$ measured in NOK), and calculating and deducting any variable management fee.

The variable management fee is calculated daily and charged/settled annually on 31 December. The variable management fee is only charged/settled if the accumulated relative value development between the fund and the equally weighted and continuously rebalanced benchmark index composed of the MSCI Nordic Countries IMI Index and the MSCI All Country World Index ex Nordic Countries (daily traded total return net \$ measured in NOK), from the time of the previous charge/settlement up to 31 December is greater than zero. The calculation period for the variable management fee is from the previous charge/settlement to the end of the year if the criteria for charging/settling the fee are fulfilled. This means that a unit holder who subscribes units during a period when the accumulated relative value development is less than zero, may avoid being charged a variable management fee even though his units have had a better value development than the equally weighted and continuously rebalanced benchmark index composed of the MSCI Nordic Countries IMI Index and the MSCI All Country World Index ex Nordic Countries (daily traded total return net \$ measured in NOK).

The daily calculation of the variable management fee per unit is affected by unit subscriptions and redemptions. Variable management fees may therefore be charged even if the development in the value of the unit class has been negative in relation to the benchmark and will similarly not be charged if the value of the unit class has been positive in relation to the benchmark.

If the unit holder does not meet the criteria for investment in the C-unit class, their unit value may be transferred by the management company to another unit class. The management company may also move the units in the event that the unit holder's assets under management in the fund (excluding unit class B) amount to less than 50 000 000 Norwegian kroner.

3. Taxation

The information given below is not intended as tax advice, but merely provides information on the basic tax rules for the Fund. Basic tax rules applicable to investors in some jurisdictions are also specified. Please contact your local tax consultant for further information.

The Fund:

The Fund is exempt from tax on profits and is not entitled to deduct losses from the disposal of units. Dividends from, and profits on, investments that fall under the exemption method are also tax-free. However, three per cent of the tax-free dividends must be considered as taxable for the Fund. The Fund may be liable to pay tax on gains and dividends from foreign companies. The Fund is exempt from wealth tax. Net capital gains, foreign exchange gains and gains on interest-bearing securities are taxed at 22%.

The Fund does not distribute dividends.

Investors liable to taxation in Belgium:

Individual investors

Belgian individual investors are not taxed on undistributed income and gains. Capital gains realized upon sale, redemption or liquidation are not taxable, provided they are realized within the scope of the normal management of one's own private estate. Capital losses are not tax deductible.

However, insofar the fund would be investing for more than 10% in debt securities (including cash deposits), Belgian individual investors will be taxed at a rate of 30% on a part of their income out of the redemption of their units acquired as from 1 January 2018, proportionate to the ratio in which the fund has invested in debt securities.

Corporate investors

Belgian corporate investors are not taxed on undistributed income and gains. Capital gains realized upon sale, redemption of the shares or upon liquidation will be taxed in the hands of the Belgian corporate investors at the normal corporate income tax rate of 29,58% (for financial years starting as from 1 January 2018). Capital losses on units are tax deductible.

Stamp duties

On the purchase and sale of units in Belgium via a Belgian financial intermediary institution, a stock exchange duty is due.

A stock exchange duty is also due in case units are purchased or sold via a non-Belgian financial intermediary institution, provided that the order for the transaction was given by a Belgian investor. In such cases, the Belgian investor is the debtor of the stock exchange duty, unless he can prove that the stock exchange duty has been paid.

No stock exchange duty is due on the issue of new units, nor on the redemption of units.

Prior to the investment, the investor should however seek approval of his local tax adviser.

4. Derivatives

In accordance with § 3 3.2 of the Articles of Association, the Fund shall have the possibility of using derivatives, the purpose of which shall be the reduction of risk. Currently, the Fund does not use any derivatives.

5. Benchmark index

The Fund's benchmark index is composed of the MSCI Nordic Countries IMI Index and the MSCI All Country World Index ex Nordic Countries (daily traded total return net \$ in NOK), weighted equally and continuously rebalanced.

6. Objectives and investment strategy

The Fund's objective shall be to provide unit holders with the best possible return for the risk taken by the Fund, through an actively managed portfolio of Nordic and global shares.

SKAGEN Vekst is an actively managed fund with a global investment mandate. The Fund shall invest at least 50 percent of its assets in companies listed or traded on the Nordic market or companies resident in the Nordic countries. The combination of a Nordic and a global mandate allows the Fund to participate in value creation in sectors that are not available in the Nordic market. The Fund's strategy is to invest in undervalued, high quality companies where the portfolio managers can identify clear catalysts for their true value to be realised. In order to reduce risk, the Fund shall seek to maintain a reasonable balance between geographical regions and industrial sectors. SKAGEN has normally a long investment horizon, and attach greater value to fundamentals than to short-term trends in the market.

7. Nature and character of the unit

General

All units represent one ownership share in the securities fund SKAGEN Vekst.

A unit holder is not entitled to demand that the Fund be split up or dissolved. All unit holders or their appointed proxies have the right to vote at the election meeting for the securities funds managed by SKAGEN. Beyond their unit investment, unit holders are not liable for the Fund's obligations. If the Financial Supervisory Authority of Norway decides that the Fund shall be liquidated or

transferred to another management company, unit holders will be informed in accordance with the Norwegian Securities Funds Act § 4-13.

The end of the Fund's financial year is 31.12.

Unit classes

- The fund is divided into different unit classes.
- The condition for accessing unit class B: The investor subscribes through a distributor which, according to its agreement with the management company, does not receive payment from the management company.
- The condition for accessing unit class C: The investor has units in the fund (not including B units) which have a cost price and/or market value of at least NOK 50 000 000, which do not qualify for distribution remuneration or other payment from SKAGEN.
- The precondition for accessing unit class C is that the investor's units are registered under a separate account.
- If the investor no longer fulfils the conditions and preconditions for a given unit class, SKAGEN will – after prior notification to the account holder – transfer the units to another unit class for which the conditions are met. SKAGEN is not responsible for any costs or inconvenience incurred by the investor or others as a result of the move to another unit class, including, but not limited to, tax consequences.

8. Auditor

The external/financial auditor is PricewaterhouseCoopers DA, P.O. Box 8017, 4068 Stavanger, Norway (org. no. 987 009 713).

The internal auditor is Ernst & Young AS, Dronning Eufemias Gate 6, 0191 Oslo, Norway (org.no. 976 389 387).

9. Custodian

The Fund's Custodian is Handelsbanken (org. no. 971 171 324), P.O. Box 1342 Vika, 0113 Oslo, Norway. The bank is a foreign enterprise registered in Norway.

10. Historical returns and risk

Please refer to the Key Investor Information Document for up-to-date bar graphs showing historical returns for the fund's unit classes and position on the SKAGEN risk scale. Key Investor Information Document may be ordered free of charge from SKAGEN, or downloaded from www.skagenfunds.com.

There risks associated with investment in the Fund as a result of market fluctuations, changes in exchange rates, interest levels, general economic conditions, and specific sector and corporate circumstances. The distribution of investments in the equity fund is a result of SKAGEN's investment philosophy. This investment philosophy examines corporate valuations, product/market matrices, indebtedness and the liquidity of the financial instrument.

In addition to the statutory requirements, SKAGEN has internal requirements for the spread of the investment between the various sectors and the liquidity of the financial instruments the fund invests in. SKAGEN has drawn up internal procedures for reducing the probability of operating errors which can affect the fund.

Historical returns are no guarantee for future returns. Future returns will depend, inter alia, on market developments, the fund manager's skill, the Fund's risk profile and subscription and management fees. The return may become negative as a result of negative price developments. The Fund's performance may vary considerably over the course of a year. Gains or losses for individual unit holders will therefore depend on the exact timing of the subscription and redemption of units.

11. Calculation and publication of Net Asset Value per unit

Each unit in the Fund shall be denominated in NOK 100.

When calculating the net asset value (NAV) per unit class, the basis shall be the market value of the portfolio of financial instruments and deposits with credit institutions, the value of the Fund's liquid assets and other receivables, the value of accrued income not yet due and the value of any tax loss carry forwards, less liabilities and accrued expenses not yet due, including deferred tax liabilities.

A discretionary valuation, called "fair value pricing" is used in case of events that may affect the value of a relevant security, or when the market on which the security is traded is closed, or if the security is illiquid. The SKAGEN practice for "fair value pricing" is in accordance with the recommendation to the industry by the Norwegian Mutual Fund Association: Valuation of illiquid equity capital instruments; www.vff.no.

Furthermore, SKAGEN has established procedures for swing pricing in order to prevent losses for existing unit holders due to subscriptions and redemptions made by other unit holders of the fund. The NAV is adjusted by a swing factor on days when the fund has had net subscriptions or redemptions in excess of a predetermined proportion of the fund's total assets. The threshold for adjustment of the NAV is set at the level at which net subscriptions or

redemptions are expected to result in the fund having to make adjustments to the portfolio leading to transaction cost, spread cost (the difference between the purchase and sales price of the underlying securities) and currency exchange cost. If the fund has had net subscriptions above this threshold, NAV is adjusted up, and vice versa if the fund has had net redemptions above this threshold. The swing factor is based on average historical costs, and is evaluated every quarter.

The procedures are set up according to the industry standard set by The Norwegian Mutual Fund Association for subscription and redemption. Read more about the industry standard for subscription and redemption of fund units on www.vff.no.

The net asset values per unit are calculated on every Norwegian banking day. Prices will therefore not be calculated on the following days: 1 January (New Year's Day), Maundy Thursday, Good Friday, Easter Monday, 1 May (Labour Day), Ascension Day, 17 May (Norwegian Constitution Day), Whit Monday, 24 December (Christmas Eve), 25 December (Christmas Day), 26 December (Boxing Day).

The net asset values are normally published 5 times a week. Publication is made through Oslo Børs ASA.

12. Unit holder register

The unit holder register of SKAGEN Vekst is maintained by Storebrand Asset Management AS. Unit holders will receive notifications of changes to holdings, annual statements and realisation statements through SKAGEN's web portal, My Page. Upon request, unit holders/nominees may arrange to receive annual statements and realisation statements by post.

13. Costs

Unit class Vekst A

Fixed management fee: 1% per annum, calculated daily and charged quarterly. Variable management fee: Better value development than 6% per annum, calculated daily, is divided 90/10 between the unit holder and SKAGEN. The unit class has a high-water mark. Variable management fee is charged/settled annually.

Unit class Vekst B

Fixed management fee: 0.8% per annum, calculated daily and charged quarterly. Variable management fee: Better value development than 6% per annum, calculated daily, is divided 90/10 between the unit holder and SKAGEN. The unit class has a high-water mark. Variable management fee is charged/settled annually.

Unit class Vekst C

Fixed management fee: 0.6% per annum, calculated daily and charged quarterly. Variable management fee: Better value development than the benchmark index calculated daily, is divided 90/10 between the unit holder and SKAGEN. The unit class has a high-water mark. Variable management fee is charged/settled annually.

More information about management fees to be found in the Articles of Association § 5 and § 7.

There are currently no costs for subscription and redemption.

14. Information

SKAGEN will publish the Fund's annual report and half year report on the management company's web site. The annual report will be published no later than four months after the end of the financial year. The half year report will be published no later than two months after the end of the reporting period. Unit holders who have provided an e-mail address will receive the report electronically. Unit holders may request to receive a copy of the reports by post free of charge.

Unit holders will receive first half and second half year reports informing them of the number of units they hold in the fund, the value of their holding and the return for the period and the year. This information will be distributed via SKAGEN's internet portal My Page.

15. Subscriptions and redemptions

Units shall be subscribed for and redeemed in accordance with the Norwegian Fund and Asset Management Association's industry standard for subscription and redemption.

Minimum subscription amount is specified in the fund's Key Investor Information Document.

For subscription and redemption in a currency other than NOK, the subscription/redemption price shall be calculated from the Fund's NAV in Norwegian kroner using the exchange rate for the relevant Fund on the valuation day. For information about the currencies that can be used for subscription/redemption, please visit www.skagenfunds.com.

Requests for subscription and redemption shall be made in writing and shall be signed, unless otherwise regulated by a prior written agreement between SKAGEN and the unit holder. New units shall be subscribed for at the net asset value per unit as at the first valuation following the subscription date (that is, when the application has been received by the management company, the funds connected with the subscription have been received and any checks have been completed). Redemption shall take place at the net asset value per unit as of the first valuation following receipt by the management company of the redemption request. The redemption request must reach the management company by 3 pm CET, adjusted for summer time, or by another point in time set with reference to public holidays (the cut-off deadline) in order for the first valuation following receipt of the redemption request to be used as the basis.

In the event of stock exchange closure, or other extraordinary circumstances, including in special instances the protection of unit holders' interests, the management company may, with the consent of the Financial Supervisory Authority, either wholly or partially suspend the value assessment and payment of redemption claims.

This prospectus is only directed to investors in jurisdictions where the relevant funds are authorised for distribution. The Fund cannot be distributed to American citizens, residents in or taxable to the USA.

SKAGEN is part of the Storebrand Group and has outsourced tasks to Storebrand Asset Management AS. The outsourcing covers securities settlement, accounting, calculation of net asset value, unit holder settlement and unit holder register for SKAGEN's funds, service towards professional clients in Norway and Sweden, reporting and management of SKAGEN's fixed income funds.

19. The Board

Unit holders of the funds which the management company manages shall select at least one third of the members of the management company's Board of Directors and at least half of this number as deputies. Deputies shall be entitled to attend, but they may not vote, at Board meetings.

The management company shall appoint an election committee. The Election Committee shall nominate unit holder representatives to the election meeting.

The Board members and deputies elected by the unit holders shall be elected at the election meeting. The election meeting shall be convened by public notice or by written notice to unit holders, with at least two weeks' notice. The election meeting shall be held each year by the end of June.

20. Board of Directors' responsibility

The Board of Directors of the Management Company is responsible for ensuring that the prospectus meets the requirements of the regulations laid down by the Norwegian Ministry of Finance on 21 December 2011 no. 1467 in pursuance of the Norwegian Securities Funds Act of 25 November 2011 no. 44.

The Board of Directors of SKAGEN hereby declares that, to the best of its knowledge, the prospectus reflects the actual facts and does not contain omissions of a nature liable to alter the meaning of the prospectus.

21. Amendment of the Articles of Association

The Fund's Articles of Association may only be amended if the majority of the unit holder-elected directors of the management company have voted for the amendments. A decision concerning any amendments shall be obtained from the unit holder meeting and the Financial Supervisory Authority of Norway (FSA). The FSA shall approve the amendments if legal requirements concerning the contents of the Articles of Association and procedures for their amendment are met.
