Investment strategy

SKAGEN Kon-Tiki is a value-based emerging markets equity fund. It seeks to generate long-term capital growth through an actively managed, high conviction portfolio of companies which are listed in, or have significant exposure to, developing markets. Subscriptions are made in fund units and not directly in stocks or other securities. The benchmark reflects the fund's investment mandate. Since the fund is actively managed, the portfolio will deviate from the composition of the benchmark.

SKAGEN Kon-Tiki A

RISK PROFILE	YTD RETURN	ANNUAL RETURN
	13.26 %	8.18 %
4 of 7	31.07.2025	Average last 5 years

Monthly report for July as of 31.07.2025. All data in EUR unless otherwise stated.

Historical returns are no guarantee for future returns. Future returns will depend, inter alia, on market developments, the fund manager's skills, the fund's risk profile and subscription and management fees. The return may become negative as a result of negative price developments. The fund's Key Investor Information Document and prospectus are available on www.skagenfunds.com

Historical return in EUR (net of fees)

The benchmark index is the MSCI EM Index (net total return), this index did not exist at the inception of the fund and consequently the benchmark index prior to 01.01.2004 was the MSCI World AC Index.

Period	Fund (%)	Index (%)	Key figures	1 year	3 years	5 years
Last month	5.45	4.56	Standard deviation	11.92	13.63	14.21

Last 10 years	4.17	5.29				
Since inception	9.84	6.86				

Returns over 12 months are annualised.

Monthly commentary, July 2025

Global equity markets continued to climb in July despite ongoing tariff and trade-related uncertainty. It seems increasingly clear that the shock from 'Liberation Day' is starting to subside as investors analyse the implications of already announced trade deals and still seemingly robust economic data. This has provided a good backdrop for Emerging Markets equities, which continue to outperform Developed Markets. Among the major markets, India and Brazil underperformed while momentum remained strong in China, Korea and Taiwan, all of which benefit from higher exposure to the technology sector.

SKAGEN Kon-Tiki delivered another strong relative performance in July, outperforming its benchmark, driven predominantly by stock-specific developments. Top contributors for the month included technology companies Samsung Electronics and Taiwan Semiconductor (TSMC), as well as Chinese insurance company Ping An. The three companies represent the fund's largest holdings and remain high conviction positions. Despite reporting relatively weak Q2 results, Samsung Electronics climbed in anticipation of improved industry conditions within memory and a potential closing of the gap to SK Hynix in high bandwidth memory. A reported USD 16.5bn chip order from Tesla also helped sentiment. TSMC, on the other hand, continued to deliver very strong operating and financial results and even raised its full year sales growth guidance to "around 30%" for 2025. The company has not seen any changes in customer behaviour despite the uncertainties and risks related to tariffs, according to management.

On the negative side, Brazilian cash & carry retailer Assai and Banco do Brasil continued to underperform a falling Brazilian market due to a weakening consumer backdrop and rising concerns over asset quality,

especially in the agriculture sector. Asset quality concerns, especially for unsecured lending, has also come under increased scrutiny in India, where our holding in Axis Bank fell after reporting disappointing results for the June quarter.

We made several incremental portfolio tweaks and fully exited our holding in West China Cement (WCC) during the month. Having originally invested in WCC in 2021, we have seen the market's perception of the company shift from a sub-scale player in a domestic market plagued by overcapacity to a leading producer in underserved African markets such as Ethiopia, Mozambique and the Democratic Republic of Congo. While we believe the company will continue to grow its international operations, its potential is now much better reflected in the share price. We have therefore gradually divested our holding as the shares approached our target price, in line with our value-based investment process. We also used the recent share price strength in gold and platinum group metals producer Sibanye-Stillwater, Korean banks (KB and Hana) and Chinese internet companies through Naspers and Prosus to reduce our holdings and re-balance the portfolio towards recent underperformers such as Brazilian pulp producer Suzano and oil producer Petrobras. We also took the opportunity to repurchase recently sold shares in both Alibaba and Walmart Mexico, as they came under short-term pressure during the month. We continued to build our positions in Chinese baijiu producer Wuliangye and the Hong Kong listed footwear manufacturer Yue Yuen.

The current investment environment presents several challenges, many of which our long-term, value-oriented, bottom-up investment philosophy should be well-suited to capitalise on. With global equity markets near all-time highs and potential for further geopolitical uncertainty ahead, we have maintained our disciplined approach to value and now hold ample cash to capitalise on any market dislocation that may arise. Despite the strong absolute and relative performance of the fund year-to-date, the portfolio continues to trade at an attractive valuation of under 9x earnings and 1x price to book, which we believe offers a compelling risk/reward proposition far beyond that of the market as a whole.

Contribution last month

 Largest contributors	Weight (%)	Contribution (%)
Samsung Electronics Co Ltd	6.40	0.93

Sustainability

SKAGEN's approach to sustainability

Our ESG approach is built on four pillars. In keeping with SKAGEN's active investment philosophy, our sustainability activities centre on active engagement with our holding companies, which is where we believe we can have the greatest impact. We recognise, however, that the full potential of a sustainable investment strategy is best realised when combining the following four pillars.

- ✓ Exclusion
- ✓ Enhanced due diligence
- ✓ ESG factsheet
- ✓ Active ownership

IMPORTANT INFORMATION

This is a marketing communication. Except otherwise stated, the source of all information is Storebrand Asset Management AS. Statements reflect the portfolio managers viewpoint at a given time, and this viewpoint may be changed without notice.

Future fund performance is subject to taxation which depends on the personal situation of each investor, and which may change in the future.

The tax treatment of the gains and losses made by the investor and distributions received by the investor depend on the individual circumstances of each investor and may imply the payment of additional taxes. Before any investment is made in the Fund, investors are urged to consult with their tax advisor for a complete understanding of the tax regime, which is applicable to their individual case.

Storebrand Asset Management AS is a management company authorised by the Norwegian supervisory authority, Finanstilsynet, for the management of UCITS under the Norwegian Act on Securities Funds and has its registered office at Professor Kohts vei 9, 1366 Lysaker, Norway.
